

Grants

What can I apply for?

Hazardous Materials Emergency Preparedness (HMEP)

Grant recipients include counties, municipalities and public and non-profit organizations that have a federal tax exempt identification number. Grant monies may be used only for activities involving hazardous materials incident preparedness for public sector responders. One grant per federal fiscal year.

Hazard Mitigation Grants

Most of the programs require a FEMA-approved mitigation plan as a prerequisite to applying for assistance to carry out a project. Mitigation plans must include the type of project for which the assistance is being sought. For example, if a jurisdiction wishes to acquire a structure in order to remove it from a floodplain, the plan needs to identify acquisition as one type of project it intends to carry out.

How can I get grants that I cannot apply for?

The following grants are dispersed with a regional or state agency perspective and must comply with the State Homeland Security Strategy.

1. Grants that are applied for by Regional HSEM or State Agencies:
 - State Homeland Security Grant Program (SHSP)
 - Citizens Corps Program (CCP)
2. Grants that are applied for by the County and Cities of the First Class:
 - Emergency Preparedness Grant Program (EMPG)
3. Grants that are applied for by the Regional Radio Boards:
 - Interoperable Emergency Communications Grant Program (IECGP)
